PRODUCT OVERVIEW

The EVA lock is an electromechanical security lock that fully locks in one point and is wired by the homeit BOX in the frame of the door. Secure, discrete and reliable, is the perfect choice for refurbishing apartments.

homeit system allows online access to:

- **Property management**
- **Management/generation and sending of digital access keys between check-in and check-out dates**
- **Creation of permanent keys**
- **Execute remote openings**
- **Viewing entry logs**

Also allows integration with Airbnb, Booking, Avantio, Google calendar, etc.
